

Discounted rates on Professional Liability Insurance

In today's litigious society your business is increasingly vulnerable to compensation claims from your customers and other members of the public. The consequences for a small business could be serious and your reputation severely damaged with claims often running into thousands of pounds.

Fenton Insurance specialises in providing professional liability cover for Chiropodists and Podiatrists to protect your business in the event of such a claim.

What does the cover include?

- **Public Liability** – This protects you against your liability to customers for injury or loss. For example, clients could trip and injure themselves whilst visiting your home or business premises.
- **Professional Indemnity** – This section applies to the advice you give to your clients, and protects you in the event of any errors or omissions on your part, which lead to loss or injury.
- **Products Liability** – If as part of your job you sell or pass on any products to your customers, this section provides cover against any liability arising out of the use of these products.
- **Libel & Slander** – You may write articles for trade journals or magazines, and this section of the policy also covers against any liability from this type of activity

Optional Extensions:

- **Personal Accident** – To provide income should you be unable to work following accident or injury
- **All Risks** – To cover loss or damage to your business tools or equipment

As a member of the **Footcare Centre** you are now able to receive a specially negotiated discount on the cost of this policy. Please see below for ways in which you can take advantage of this offer.
